

MID-HUDSON RADIO CONTROL SOCIETY
General Meeting Minutes

Date: 4/1/2019

Start time: 7:10 PM, at the Poughkeepsie United Methodist Church

Present: 18 members, 1 guest

- The minutes from the previous meeting located on the club's website, were accepted as posted.
- One guest was present, and introduced himself as John Cossa.
- Fred DiMaria reported on the club's financial status. Warren Batson made a motion to accept the finance report as stated, and Otto Loorents seconded the motion. All present voted in favor.
- Rob Schulze reported on the Redwing field. The adjacent pond on the northern side of the field is flooded due to beavers constructing a dam. The water level is now approximately a foot below the field level. It has receded some from the high watermark level. There is increased soccer activity on the other playing fields.
- Wallkill field report: Lease and payment for the field usage is all set. Opening day is on or after April 16, depending on the weather conditions. We do need to anchor the Porta-Potty down so that is not blown around in windy conditions. The owners of the field requested that we drive behind the new building to get to our parking area.
- Peter Jagich has submitted the application to the AMA for our club's "Gold Leader Club" status.
- Warren noted that the "ORA Fun-Fly" is coming up. We can use some help on both Saturday and Sunday to run the event. You can show up at 8:00 AM each day. Warren will send out a reminder email to the club. If you have a large "scag" type mower to help cut the runway flying area, please let Warren know. Warren will also prepare a reminder letter to be sent to potential pilots. Flavio will send out when done.
- Other notes regarding the Jamboree: Jerry Yarish will be making up the plaques for us again this year. A large stone has been located for mounting the plaque that the AMA had presented earlier. When the ground conditions improve, the stone will be moved into place.
- Project Night:
 - First place: Denis Sardo, ¼ scale Space Walker.
 - Second place: Fred DiMaria, Brodak Tomahawk control line model.

Meeting adjourned: 8:16 PM

Minutes submitted by: Flavio Ambrosini
