

MID-HUDSON RADIO CONTROL SOCIETY
General Meeting Minutes

Date: 4/4/2011

Start time: 7:31 PM, at the Poughkeepsie United Methodist Church

Present: 22 members and guests

- This meeting was the informal “project night” meeting. People were encouraged to bring in their projects and give a brief explanation. The following models were brought in.
 - Jim Rangitsch – Waco biplane, powered with an OS 120 - 2 stroke engine, painted in a yellow color scheme borrowed from a full size Waco that recently visited the Dutchess County Airport.
 - Jonathan Elie – Great Planes Piper Cub, 91” wingspan, repaired and covered with Solortex, powered with a gasoline engine.
 - Warren Batson – Clipped Cub that he has finished repairing with new covering and paint scheme utilizing house hold latex paint. Powered with a G23, weighing in at approx 14.5 lbs.
 - Rick Rizza – float plane from an Herr kit, that is now carried by Sig.
 - Rick Rizza – foam Hercules powered by 4 small electric motors.
 - Joe Klein – Sig Piper Cub that was given to him and will be made flyable again.
- Warren went over the calendar in regards to upcoming events.
- Warren noted that there were two work parties held at the Old Rhinebeck Aerodrome to help repair damage caused by recent severe storms. The first one was attended by six members from our club and two members from the WRAM club. The second work party had five MHRC members and one from the WRAM club. Both work sessions went well with a lot being accomplished. The Aerodrome personnel were very appreciative of the work done. Another work date will be planned in the future.
- Warren mentioned that the “sanctions” are in for this year’s Jamboree.
- The current membership count is at 63.
- Please use caution when accessing the club flying fields. The entrance roads and grounds are saturated and soft from all of the recent rains.

Meeting adjourned: 8:30 PM
