

MID-HUDSON RADIO CONTROL SOCIETY
General Meeting Minutes

Date: 3/7/2016

Start time: 7:04 PM, at the Poughkeepsie United Methodist Church

Present: 23 members, 1 guest

- The minutes from the previous meeting, located on the club's website, were accepted as posted.
- Peter Jagich reporting for Rob Stubbs on the current membership renewal status. 54 members have renewed to date.
- Field reports:
 - RedWing field - Rob Schulze reported that the field is in good shape, but wet. Parking should be done on the side of the road, and not on the grass for the time being.
 - Wallkill field - Ron Revelle reported that the field is also in good shape. The telephone company is looking to install a cell tower on the southeast area of the property. Location would probably be behind the flight line plane. We can look into adjusting the location of the mowed runway as time goes on. Possible time frame could be late this year, to some time next year.
- Fred DiMaria reported on the club's financial status.
- Lloyd Quick gave an update on Jer Milosek. He is doing better, and hopes to be flying again by June.
- Peter mentioned that the club is still looking for someone to take over the newsletter editor position. If you are interested, please see any board member.
- Ron Revelle reported on the status of planning for the 50th Jamboree event. Ron is working with the AMA on two recognition statuses for both the club and the Aerodrome. A big thank you to Ron for all of his time and efforts on this project.
- Warren Batson noted that the Spring Funfly sanction is in with the AMA. The event is scheduled for June 4-5.
- The Jamboree Mission information and registration page is almost ready for publication. Final tests are being made at the moment.
- Rob Schulze volunteered to communicate in RC Groups when the Mission information is made public.
- Warren brought in a homemade plane stand that he constructed. Made of wood and finished in polyurethane, with modifications made to make it more functional.
- Warren led a discussion on the importance of preflighting your models in the springtime before flying season starts.
- Reminder that the next meeting will be Project Night.

Meeting adjourned: 8:10 PM
